

This is to certify that
Keytech Managed Solutions Ltd

3 Smithy Court, Pemberton Business Park, Wigan, WN3 6PS, UK

Has been assessed
by Alex Drabek for IT Governance Ltd
against the Cyber Essentials Scheme Test Specification

Level of certification: Cyber Essentials

Scope: Internet facing infrastructure for Keytech. Including firewalls, routers, end user devices and hosted systems located at the Keytech Head Office

Certification date: June 6th, 2016

Recommended re-assessment date: **June 5th, 2017**

Certificate no.: 5971300313466999

This Certificate confirms that the organisation named was assessed against the Cyber Essentials Requirements dated June 2014, and at the time of testing, the organisation's ICT defences were assessed to meet the Requirements. Cyber Essentials Certification indicates that the organisation has implemented a sensible baseline of organisational cyber security only, and implies no guarantee of effective defence against commodity cyber attacks circumventing this baseline. Organisations are recommended to define and understand the risks to their organisation and take all appropriate action to mitigate or reduce any issues, which may require a greater degree of rigour or technical investment than is required for Cyber Essentials alone.
